

Manufacturing Insights

Continuous Improvement through Lean Manufacturing & QA/QC

Continuous improvement is an ongoing effort to improve products, services or processes. If interested in learning how Lean Manufacturing, as well as Quality Assurance and Quality Control systems can be used to reduce waste, flow value to customers, while keeping costs and delivery times under control, then you will benefit from attending this session.

Campbell's Place Restaurant
Port Hope Simpson
Monday, November 21, 2011
11:30 am - 2:00 pm

This initiative is coordinated by the Department of Innovation, Business and Rural Development, in partnership with Atlantic Canada Opportunities Agency and Canadian Manufacturers & Exporters, and will include an open forum as well as a networking lunch.
